

# Portsmouth Peace Treaty Living Memorial Project

The Japan-America Society of NH has planted the Portsmouth Peace Treaty Living Memorial cherry trees that are direct descendants of the Washington DC trees at key Portsmouth Peace Treaty sites: the Portsmouth Naval Shipyard, where the Treaty was negotiated and signed; Wentworth By the Sea Hotel where the diplomats stayed; Strawbery Banke, the neighborhood where ordinary citizens including Russian-Jewish emigres lived; the Portsmouth Historical Society where the Treaty exhibit is located; at Portsmouth schools, buildings and city gateways and in other locations around New Hampshire with Treaty and "citizen diplomacy" connections.
